Advanced Deployment Training

Welcome everyone

Please say hi to each other.
We'll spend the day together.

Logistics

- WIFI-SSID: **some-ssid**   Password: **some-password**

- Install last stable Neo4j **Enterprise** version from USB / neo4j.com/download

- 1 morning break, lunch, 1 afternoon break

- Working together today

  - Pair on the exercises, that works much better, help each other!

  - Ask relevant questions immediately, raise your hand if you have problems

  - Keep larger questions to the breaks / end

  - Use the scratch-pad google doc: bit.ly/_production

  - Join neo4j.com/slack and go to the #training-production channel

- Please fill out the feedback form: bit.ly/neo-survey (gives a discount code)

What are we going to do today?

- An intro to Neo4j

- Backup/Restore

- Data Import

- Monitoring

- Security

- Causal Clustering

Thank you for your time

Any other questions?
